

CONNECTICUT SCIENCE CENTER

WINTER VACATION

EXPLORATION CAMPS

Programs for
Ages 6 – 12

WEDNESDAY
DEC 26

LEGO Creator

LEGO lovers rejoice! This camp was built just for you. Let your imagination soar to the stars and beyond as you use LEGO building blocks to create your own inventions and solve fun challenges. Can you build a LEGO machine to help you do chores? What about a LEGO vehicle that is capable of independent movement? Choose from hundreds of building pieces like gears, pulleys, and levers to axles and wheels - and let your imagination take over.

THURSDAY
DEC 27

Toy Designer

Are today's toys just not living up to your imagination? Are the standard off-the-shelf options leaving you wanting more? We have the solution! Join us as we become toy creators and invent, prototype, and build the craziest and coolest new toys around. Watch your imagination spring to life as you help reshape and design the future of toys.

FRIDAY
DEC 28

Kitchen Chemistry

Today's menu features chemistry with a side of FUN! Help us explore all of the science that can be found in the kitchen. Together we will investigate the wondrous properties of some pantry staples like milk and cabbage. We'll be "cookin' up" some fun experiments with these items and learning how the chemistry of food is just one example of the many roles chemistry plays in our everyday lives.

MONDAY
JAN 21

Science of Pokémon*

Ever feel like you gotta catch them all?! Join us as we explore the imaginative world of Pokémon and the science behind it. Together we will investigate how the characters evolve the adaptations that help them win battles and the technology behind the phenomenon of Pokémon Go.

*Pokémon is a registered trademark of Nintendo, which does not sponsor, authorize or endorse this camp. (Pokémon Go or other Video games will not be played on site.)
